

MMM Holdings, LLC once again recognized as one of Puerto Rico's Best Employers

For a third occasion, AON Hewitt recognized MMM Holdings, LLC as one of Puerto Rico's Best Employers for 2014 in the Large Companies category – 400+ employees. "We thank our employees throughout the Island for the trust and commitment they demonstrate everyday through their excellent performance. This recognition confirms that our work team feels satisfied and motivated in their work environment; which inspires them to reach for the highest level of excellence while going the extra mile in everything they do for the community we serve. Their high quality work has a direct impact in Puerto Rico's health", said Orlando González, President of MMM and PMC. This distinction, awarded yearly, shows how employees feel about the work conditions and environment provided by their employers.

"Thirty percent of our employees have been working with us between eight and 13 years, in the company's 14-year history. This shows their great sense of responsibility and commitment, until reaching a warm work environment in which, more than colleagues, we are a big corporate family," added Dr. Rick Shinto, Chief Executive Officer of MMM Holdings, LLC.
